## PRINCIPALS REPORT

**MR BOB LANGE**  
**PRINCIPAL**

Education Week is a statewide, annual event, held during the first week of August, to celebrate NSW public education. The week communicates the achievements of public schools, their students and the value of public education. We will combine our Education Week celebrations with Book Week in Week 8 of this term.

The theme for 2018 Education Week is: *Today's schools – creating tomorrow's world.*

It celebrates how NSW public schools are equipping young people with the skills and capabilities they need to thrive in a rapidly changing, globalised world.

Key messages are:

### **Growth mindset**

By developing a growth mindset, our students will become lifelong-learners equipped with the resilience to embrace challenges, the aptitude to reach higher levels of achievement and the adaptability to master new skills.

### **Applied learning**

By grounding education in real world learning opportunities, our students are acquiring the capabilities needed to tackle and solve complex issues in the 21st century.

### **Evolution of the classroom**

By creating future-focused learning spaces that integrate advanced technology and promote

connection and collaboration, the classroom is expanding beyond the traditional four walls.

### **Strong relationships**

By building strong relationships in our school communities, we are ensuring that every student is known, valued and cared for.

### **System-wide commitment to innovation and excellence**

By placing our students at the centre of all our decision-making, we are continually striving for improvement and innovation so that young people in our care learn in a world-class education system.
